DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest some of the limitations found in independent claims 1, 12, and 16. With respect to independent claim 1, the prior art of record (McEwan et al '921 and Kleveland et al '929) fails to teach or suggest the pulse-forming circuit including a reverse-biased diode coupled in series with the output of the nonlinear transmission line circuit. With respect to independent claims 12 and 16, the prior art of record (Geis et al '240) fails to teach or suggest a pulse-forming circuit coupled to a first end of a non-linear transmission line, a second end of the nonlinear transmission line adapted to be coupled to a periodic signal generator. Therefore, independent claims 1, 12, and 16, as well as all dependent claims, are allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
